

# AIDD 30-Day Challenge — Task 1

## Reflection Activity (40 min)

Write your reflection in your own words:

What does AI-Driven Development mean to you?

**Answer:** AI-Driven Development is no longer about writing code .it's about orchestrating intelligence

- I don't debug syntax errors for hours
- I don't build alone build with help of Gemini Cli
- In Gemini.md file we write context and AI read and execute the prompt accordingly

How do you see the future of Human–AI Collaboration in software development?

- The future of human–AI collaboration in software development will feel like working with a smart teammate.
- AI will handle routine tasks—writing code, fixing simple bugs, and generating tests—while humans focus on creativity, design, and decision-making.
- Developers won't be replaced; they'll be empowered.
- AI will speed up the work, but humans will guide the direction, ensure quality, and make the final choices.
- The result is faster development, less stress, and better software built together.

## Self-Test (MCQs)

❑ 1 What is the main purpose of the AI-Native Era?

a) Replace developers

☑ ~~b) Empower developers through AI tools~~

c) Eliminate coding

d) Automate testing

❑ 2 What defines an AI-driven developer?

a) Writes only syntax

☑ ~~b) Creates context-aware prompts~~

c) Avoids tools

d) Works offline

❑ 3 What does “AIDD” stand for?

a) AI-Integrated Data Design

☑ ~~b) AI-Driven Development~~

c) Automated IDE Deployment

d) Adaptive Input Debugger

❑ 4 What is the focus of Evaluation-Driven Development (EvDD)? a)

**Manual coding**

☒ ~~b) Evaluating and improving AI outputs~~

c) UI design

d) Testing only

☐ 5) What should developers focus on in the AI era?

a) Syntax only

☒ ~~b) Building reasoning + e-valuation skills~~

c) Avoiding AI tools

d) Manual workflows

## End-of-Day Reflection

“Today I learned that AI isn’t replacing developers — it’s redefining them.  
The 2025 Turning Point proved that coding is no longer just syntax; it’s  
about reasoning, collaboration, and strategy.”
